

Welcome to The Dental Practice

We are pleased that you have chosen our practice to serve your dental needs. Prior to your scheduled appointment we would like to share with you more about our office and what to expect when you arrive.

Upon your arrival we will do a complete examination together using magnification, intraoral cameras and special lighting. Following the examination, we will look at what we see together. We call that Co-Discovery. What happens next considers what are any urgent health concerns for you. After that we consider together what is valuable to you. What do you expect from your teeth and from us. We can help you see and understand what is possible.

We will also work with you in establishing financial arrangements and, as a service to you, we will gladly submit your claims to your insurance company for you.

Here at The Dental Practice, we offer the following services:

- A wide range of cosmetic and esthetic services. These services include bleaching or whitening of the teeth, direct bonded tooth colored composite fillings, porcelain veneers and all porcelain crowns.
- A full range of crown and bridge services and reconstruction for badly broken down or extremely worn teeth.
- Implant dentistry for replacement of missing teeth.
- Treatment of gum diseases and reconstructive surgeries.
- A full range of denture services. These services include full and partial dentures and implant supported and retained dentures.
- Root canal therapy treatment of teeth that are infected and would otherwise need to be removed.
- A variety of minor oral surgery procedures including extractions and removal of wisdom teeth.

We take our professional obligation seriously and use high quality techniques and materials to provide treatments that our patients desire and deserve. Our fees are based upon what it costs to provide excellent dental care. Please read and understand our financial policies (reverse side) before your appointment date. Also, in order to serve you more efficiently, we would ask that you please fill out and return the patient information form in the envelope provided.

If you would like further information regarding The Dental Practice, please visit us on the web at www.thedentalpractice.net. Thank you for choosing us to serve your needs.

We look forward to seeing you soon.
